1. Overview of Operating Results

(1) Overview of Operating Results for the Nine Months Ended September 30, 2025

During the nine months under review (from January 1, 2025 to September 30, 2025), the Japanese economy was on a moderate recovery trend due to the persistently high appetite for investment among corporations backed by strong financial performance with a continued improvement of the employment and income situation, in spite of the impact of the U.S. trade policies, especially in the automobile industry. On the other hand, the outlook remains uncertain due to factors such as the unstable political situation in Japan and heightened geopolitical risks.

Amid this social and economic environment, major manufacturing companies maintained upfront investment in R&D for a competitive advantage, and requests made to the Group remained firm.

Based on the corporate philosophy "Heart to Heart," the Group has set a vision of "Team Alps," and aims to raise corporate value by taking on new business challenges with the full strength of the Group. In the engineer assignment business, which is the core of the Group, we strengthened our recruitment measures and worked to secure talented engineers. In addition, we made company-wide efforts to strengthen technical education in the fields of cutting-edge technologies, aerospace, and the environment where growth is expected, and implemented initiatives in conjunction with sales policies such as team assignments. As a result of the above measures, both the total number of staff in operation and the contract unit price have increased. Driven by these various factors in the engineer assignment business, in the nine months under review, the Company recorded net sales of 38,190 million yen (up 6.2% year on year), operating profit of 3,924 million yen (up 9.4% year on year), and ordinary profit of 4,065 million yen (up 9.4% year on year). Also, the Company recorded profit attributable to owners of parent of 2,683 million yen (up 13.6% year on year).

In September 2025, the Company established the Space Business Promotion Office. Based on the knowledge accumulated by its group companies, the Company will make a concerted effort to expand its space business. To create strengths for the next generation, the Company is developing new business fields such as agriculture, nursing care, and supply chain management, and expanding its manufacturing business.

The results of operations by segment are as follows:

1) Outsourcing Service Business

In the outsourcing service business, which is the Company's main business, we are engaged in the acceptance of consignment of technical projects, office staff assignment, and other services, with a focus on engineer assignments. In order to secure talented personnel even amid intensifying competition, we improved the environment by revising the starting salary for new graduates and reviewing the personnel system, and implemented recruitment plans that consider the intentions of job seekers, including referral recruiting. In addition, by strengthening technical education in the fields of cutting-edge technologies, aerospace, and the environment where growth is still expected and implementing initiatives in conjunction with sales policies such as team assignment, we successfully increased both the total number of workers in operation and the contract unit price. As a result, net sales for the nine months under review were 34,849 million yen (up 3.7% year on year), and operating profit was 3,465 million yen (up 5.0% year on year).

2) Global Business

In the global business, the Company provides design, manufacturing, installation and maintenance services for plant facilities, machinery and equipment, and staffing services overseas. Due to the acquisition of orders for new projects and the expansion of the staffing service business mainly in the semiconductor industry, where demand is growing, for the nine months under review, the Company recorded net sales of 3,258 million yen (up 43.0% year on year), and operating profit of 502 million yen (up 51.4% year on year).

(2) Overview of Financial Position for the Nine Months Ended September 30, 2025

Total assets at the end of the nine months under review were 28,665 million yen, an increase of 588 million yen from the end of the previous consolidated fiscal year. This was mainly due to an increase in deferred tax assets. Total liabilities were 9,654 million yen, an increase of 320 million yen from the end of the previous consolidated fiscal year. This was mainly due to an increase in provision for bonuses. As a result, net assets increased by 267 million yen from the end of the previous consolidated fiscal year to 19,010 million yen.

Accordingly, the capital adequacy ratio was 66.1%.

(3) Explanation of Consolidated Financial Results Forecast and Other Forward-looking Statements

As for the forecast for the fiscal year ending December 31, 2025, there are no changes to the consolidated and non-consolidated forecasts announced on February 13, 2025, as the current requests for assignment to the Group remain strong.

(Changes in Accounting Policies)

The Accounting Standard for Current Income Taxes (ASBJ Statement No. 27, October 28, 2022; hereinafter, "Revised Accounting Standard 2022") has been applied since the beginning of the consolidated fiscal year under review.

Revisions concerning the categories in which income taxes should be recorded (taxes on other comprehensive income) are subject to the transitional treatment set forth in the proviso of paragraph 20-3 of the Revised Accounting Standard 2022 and the transitional treatment set forth in the proviso of paragraph 65-2 (2) of the Guidance on Accounting Standard for Tax Effect Accounting (ASBJ Guidance No. 28, October 28, 2022; hereinafter, "Revised Guidance 2022"). This change in accounting policies has no impact on the consolidated financial statements.

With regard to revisions related to the review of treatment in consolidated financial statements when gains/losses on sale of shares of subsidiaries, etc., among consolidated companies are deferred for tax purposes, the Company has applied the Revised Guidance 2022 since the beginning of the consolidated fiscal year under review. This change in accounting policies is applied retroactively, and the consolidated financial statements for the previous consolidated fiscal year are after retroactive application. This change in accounting policies has no impact on the consolidated financial statements for the previous consolidated fiscal year.
